Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 13 November 2006.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.

DETAILED ACTION

Election/Restrictions

Applicant's election with traverse of claims 1-3, 11-16 and 22-25 in the reply filed on 11/13/2006 is acknowledged. The traversal is on the ground(s) that the search and examination of the entire application can be made without serious burden. This is found persuasive; as such the restriction requirement has been withdrawn. Therefore, claims 1-3 and 11-24 are hereby prosecuted

The requirement is still deemed proper and is therefore made FINAL.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claim 25 is rejected under 35 U.S.C. 102(e) as being anticipated by Takahashi et al. (US 6,841,931 B2).

Regarding claim 25, Takahashi et al. discloses in figure 5A a light emitting diode lamp comprising a package 2 (col. 11, line 66); a plurality of electrodes 3 (col. 12, lines 45-59) in an opening in said package; a red light emitting element R bonded to a first

electrode 3a of said plurality of electrodes 3; a green light emitting element G flip chip bonded face down (col. 13, lines 1-18) to said first electrode; and a blue light emitting element B flip chip bonded face down (col. 13, lines 1-18) to said first electrode.

It is noted that the green and blue light emitting elements are bonded to the first electrode 3a via the wire 4 as shown in figure 5A.

Allowable Subject Matter

Claims 1-3 and 11-24 are allowed.

The following is an examiner's statement of reasons for allowance:

The reference (s) of record do not teach or suggest, either singularly or in combination at least the limitation of "[a] green light emitting element and a blue light emitting element are flip chip bonded face down directly to a first electrode of the plurality of electrodes and wherein the plurality of electrodes extend to a surface opposite to a light emission surface of the LED lamp while being embedded in the package" for claim 1.

Response to Arguments

Applicant's arguments with respect to claim 25 have been considered but are moot in view of the new ground(s) of rejection.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
